

# LUMINARIA FORM

**American Cancer Society**

**Relay For Life of Menifee**

**Light a Luminaria in Menifee**

**Mt. San Jacinto (Menifee campus)**

**June 9 & 10, 2007**

One of the highlights at the American Cancer Society's Relay For Life is the Luminaria Ceremony. This takes place at dusk during Relay For Life. It is an opportunity to help in the fight against cancer; and pay tribute to someone in your life who has been touched by cancer. You will be truly lighting the way for cancer research, education programs and patient services.

**What is a Luminaria?** A Luminaria consists of a small white bag filled with sand, and a small candle. The outside of the bag is personalized to recognize people who have battled cancer. You can salute a cancer survivor "in honor of," or remember someone who has lost the battle "in memory of." The candles are lit during a special ceremony, and they burn all night... lighting the way for the walkers.

**Cancer Survivors can also celebrate their anniversary date (days, weeks, months, years) of survivorship by checking the box below "Celebration my Survivorship".**

You can make a donation of \$5.00 and have a Luminaria lit at the Relay For Life of Menifee. Proceeds will benefit the cancer-fighting work of the American Cancer Society.
